

# SCHOOL NOTICEBOARD: SELKIRK HIGH SCHOOL

THE latest from behind the scenes at Selkirk High School...

S2 students had an introduction to debating

### P7-S1 transition

This week's P7 Transition session was delivered by Miss Ditchfield, who is one of our teachers in home economics. A live introduction from Miss Ditchfield was followed by a video telling the pupils all about the HE classrooms and the sort of things that the pupils will be cooking when they come in to S1; as well as a game of 'Guess Who?' for pupils to guess the ingredient or piece of kitchen equipment. The P7 pupils were then tasked to complete their own 'food profile' to share with Miss Ditchfield. Lots of pupils posted about their favourite recipes and favourite ever meals. Miss Ditchfield replied: "I'm loving reading all your profiles. Making me hungry for my lunch!"

### Spring has sprung

Happy Easter from the RTL classes who have worked magnificently over the last week to make more than 200 paper daffodils to give a posie to every member of staff at Selkirk High School. Happy Easter and thank you for the help over this difficult term.

### Breakfast Café

The SHS Breakfast Café returned for the final week of term. Thank you to the staff who volunteered

to serve hot and cold drinks. It was lovely to chat to some of the pupils before they left for the Easter holidays.

### S2 students

This week, S2 science enjoyed time outside collecting data for speed calculations as part of their physics topic. Pupils measured a distance and then timed how long to travel in different ways such as walk, skip, hop and backwards (pictured right). As part of the lesson we used the iPads to photo evidence, record times, carry out calculations and produce electronic graphs. S2 also had an intro to debating as part of their space research with a focus on the Golden Skills of teamwork and communication. The affirmative side were the clear, although surprising, winners with well researched and presented points supporting "This house believes there is life out there and they have come to Earth".

### Home economics

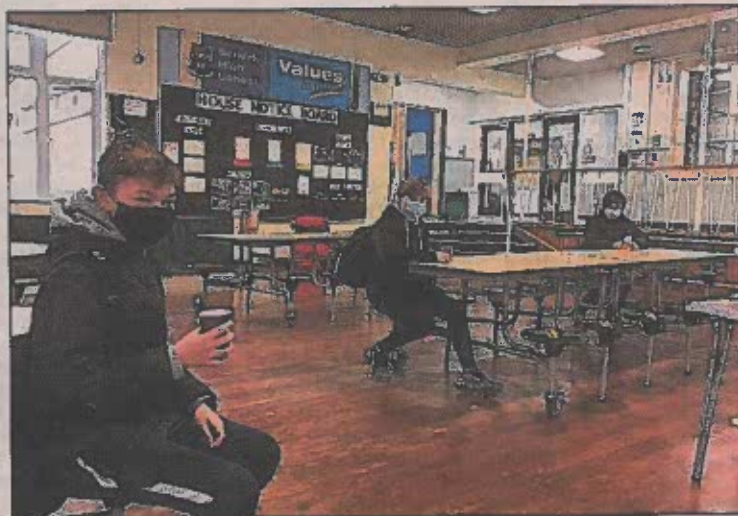

The home economics department would like to wish everyone a happy Easter and a good holiday. Our wonderful survival cookery students have created these Easter nest cake delights whilst the S3 students have been making Easter buns.

Pupils made daffodils for members of staff
