

SCHOOL NOTICEBOARD: SELKIRK HIGH SCHOOL

THE latest from behind the scenes at Selkirk High School...

Careers Fair

Our Careers Fair and Learner Journey Evening finally returned on Tuesday, January 31, after a COVID-enforced break.

With support from the regional DYW team, more than 30 businesses, further education providers and higher education providers attended the event and were available to speak to both students and parents.

As importantly, each faculty from the school was there to present the options available to students in each year group.

With a slight change in the schedule from previous years, the doors to the hall opened to students just after 2.30pm.

This meant that many students were released from lessons and were able to attend during school time.

Employers enjoyed the opportunity to talk to our students and make them more aware of the opportunities within their companies.

Students were able to ask questions and explore their options, both within and beyond school. From 5pm the doors opened to include parents and the wider community.

Although quieter than the earlier hive of activity there was time for links to be formed between faculties and some of the local businesses.

This is a crucial step in getting local businesses directly involved

in the development of our curriculum and our students. Informative talks were also held by our deputy head teachers, Vicki

Blair and Laura Thomson – providing guidance on the how students select their options and sources of extra support and

guidance. Selkirk High School thanks the businesses for supporting the event and looks forward to forming stronger links

in the future. It was also positive to have another chance to discuss options with both students and their parents. *Photo: Google Maps*
