## **School Improvement Survey; Positive Relationships for Learning**

Dear Parents and Carers,

Please find below feedback from our Parent School Improvement Survey to see what parents/carers said and what we're doing about it!

[SHS PARENT SURVEY FEEDBACK FEB '24.pdf](#)

A key theme from the survey and from our SHS Parent Partnership is about the quality of communication.

We are responding to this by working with parents and staff to make some pretty significant changes over the next few weeks and months to

- how we communicate about Learning and student's progress
- how we communicate about our SHS approaches to a range of issues
- how we celebrate success and pass on important information to families, including a review of how we use facebook, groupcall, Xpressions app etc and the opportunities presented by the Showbie app.

Watch this space!

As part of our response to the need to improve communication, please see below our 'one stop shop' for information about how we prioritise positive relationships at SHS and support positive behaviour in the school.

I hope this is helpful.

As ever, thank you for your support- and please never hesitate to get in touch about anything which can help you, our young people and our wonderful school.

All the best,

Jamie Bryson, Headteacher
