

# SCHOOL NOTICEBOARD: SELKIRK HIGH SCHOOL

...All the latest news straight from the classroom

The National Space Academy visited the school

The school said good luck to senior biologists recently

## Space school

THE National Space Academy came to Selkirk High School to run two workshops, one for S2 and one for S3. These involved learning about the different aspects of space science, building rockets, testing different fuels and even trying on a real astronaut's launch suit! Students were inspired and had a wonderful time.

year curriculum. S1 students compared materials and their uses then put this knowledge into practice by designing and building bug hotels. This is the first part of a larger project to build an eco model of our school and earn Young STEM Leader awards. The students had some fantastic designs and builds.

## Science

THE school said good luck to its senior phase biologists as they embarked on their study leave. Meanwhile, S1 students explored acids and alkalis by testing different solutions using universal indicator.

Pupils tested different solutions using universal indicator

## Climate Smarter

CLIMATE Smarter came to Selkirk High School to run a workshop that compliments some renewables lessons we have been doing in our first

Climate Smarter ran a workshop at Selkirk High School
