...All the latest news straight from the classroom

Maths

Our amazing budding mathematicians from the Advanced Higher and Higher Maths classes at Selkirk HS, took part in the UK-wide UKMT Senior Maths

Challenge this month.

This involved solving rather challenging problems, designed to make them think deeply, using their mathematical knowledge and understanding.
A special well done to Alfie Gorrill,

who achieved 'Best in School' and a Bronze Certificate.

Well done to everyone. Meanwhile, the Selkirk HS team attended the Scottish Borders Entertaining Maths Competition at Tweedbank just before the October

Holiday.

Despite our team being the youngest there we came 4th (only five points behind third place) – a fantastic achievement by Euan, Erin, Alice and Antonia in S3.
