

# SCHOOL NOTICEBOARD: SELKIRK HIGH SCHOOL

...All the latest news straight from the classroom

## STEM

Twelve talented S1 and S2 students recently represented Selkirk High School at the Borders Celebration of STEM event in Kelso, where they showcased their impressive projects and participated in a series of engaging challenges.

During the event, the students took part in eight ten-minute STEM challenges, demonstrating their creativity and problem-solving skills.

Their hard work paid off, as one team achieved runners-up in the challenges, a testament to their dedication and teamwork.

The students exhibited remarkable courage while presenting their work, impressing the judges with their excellent oracy skills.

Their ability to communicate complex ideas clearly and confidently was truly commendable.

This event not only highlighted the students' achievements in science, technology, engineering, and mathematics but also fostered a spirit of collaboration and innovation among young learners.

All at Selkirk High School are so proud of their efforts and look forward to more such successful ventures in the future.
